PPI-PREPURCHASE INSPECTION REPRESENTATION MAJOR INSPECTION OVERSIGHT

EXPERIENCE
& EXPERTISE
COUNT

Customers whose aircraft undergo a major inspection assume an incredible risk when they rely solely on the facility to guide them through the myriad of decisions of getting their aircraft back into airworthy condition.

Engaging Jet International Management & Services not only levels the playing field, it provides you a marked advantage as we navigate a path through every issue to ensure we've found every discrepancy and rectified it at the lowest cost.

We can help you avoid the major pitfalls of the inspection process.

- Management of facility bid process & recommendations
- Schedule and budget compliance to meet your deadline
- Ensuring Owner's interests represented
- Expert on-site representation throughout the process
- Regular reporting to owner/operator

PPI/Pre-Purchase Inspections Advice Pays for Itself!

PPI/Pre-Buy Inspections are the most critical and important facet of the Aircraft acquisition process.

Expert Advice Pays for Itself

If your aircraft is scheduled for a major maintenance inspection, we can manage the entire process.

In addition to on-site project oversight Jet International will also manage upfront bids and negotiate price with the different service facilities.

We work to ensure that your aircraft receives the best technical support. Best pricing terms and shortest downtime.

We are the experts and we can save you time and money on your upcoming inspections.
